

	Cardiac Muscle	Skeletal Muscle
Source of depolarization		
Depolarization down the T-tubule causes ...		change of shape of the DHP receptor
Contraction is all-or-none? (Yes or No)		
Source of Ca ⁺⁺		SR only
What causes Ca ⁺⁺ to be released from the SR?		
How is Ca ⁺⁺ removed from the cytosol?		Pumped back into SR
Role of Ca ⁺⁺		regulatory (binds with troponin)
